SCC Conference
March 16-17, 2018

#1 Darren Lang – Stress

Use Exercise, Deep Breathing, Shopping, Venting, Pets, and or Hobbies to de-stress.

Mark Twain “Been thru some terrible things in my life, a few of them actually happened” this means we tend to exaggerate things.

We should “CHILL & CHOOSE” – de stress then choose a way of dealing with the problem in a more productive way. When making a Chill Chart – use 3 memories that make you laugh – then deal with the problem.

#2 Blanket Exercise – A visual, interactive way of learning the history of the aboriginal people- very emotional and enlightening.

#3 Dr. Sean Lessard talked about how sometimes we feel like we don't have a place or a space. We need to make a space. School could be the Hub of our space and we can co-create space with neighbours and the students and their families.

If we "Don't be Big...Be Small with Kids" or if we sit down with kids and have a snack or drink and talk and listen on their level, we would hear more.

#4 Annie Battiste – Reconciliation and Action

We should learn the past before choosing to build a better future with trusting relationships.

I suggest that the SCC purchase a Treaty Medal and maybe a Flag. Medal is \$20. Flags are anywhere from \$10-\$126 depending on which one.

#5 Herb Sutton talked about how to make our communities safer. We should get to know our neighbours, because people who know each other care about each other. Schools could do something nice for the neighbours like pick up litter, shovel walks, paint over graffiti etc.

#6 Side Talks- All schools across SK seem to have problems getting SCC members. One different idea that was brought up is to have Room Reps for each classroom who could bring the classroom ideas and or requests to each SCC meeting and be members of the SCC.
